There are two time periods we will discuss:

2. Lifetime Data

**Patient Rating Scale:** Patient input is important. For each area, I will ask you to use this scale to let me know how bothered you have been by any problems in each section. I will also ask you how important treatment is for you for the area being discussed.

The scale is:

- 0 - Not at all
- 1 - Slightly
- 2 - Moderately
- 3 - Considerably
- 4 - Extremely

If you are uncomfortable giving an answer, then don't answer.

**Please do not give inaccurate information!**

4. Terminate interview if client misrepresents two or more sections.
5. When noting comments, please write the question number.

## **ALCOHOL/DRUG USE INSTRUCTIONS:**

The following questions look at two time periods: the past 30 days and lifetime. Lifetime refers to the time prior to the last 30 days. However if the client has been incarcerated for more than 1 year, you would only gather lifetime information, unless the client admits to significant alcohol /drug use during incarceration. This guideline only applies to the Alcohol/Drug Section.

- P 30 day questions only require the number of days used.
- P Lifetime use is asked to determine extended periods of use.
- P Regular use = 3+ times per week, binges, or problematic irregular use in which normal activities are compromised.
- P Alcohol to intoxication does not necessarily mean "drunk", use the words felt the effects", "got a buzz", "high", etc. instead of intoxication. As a rule of thumb, 5+ drinks in one setting, or within a brief period of time defines "intoxication".
- P "How to ask these questions:
  - ® "How many days in the past 30 have you used....?"
  - ® "How many years in your life have you regularly used....?"
